# The Resolution Process

## For Affiliates

By referring clients who require tax resolution services to Tax Network USA, you will receive a referral fee that is equal to a percentage of the fee we bill to the client.

Functionally, there are two options available as the referrer. # The Resolution Process

## For Clients

Once the client has been recommended by an affiliate and agrees to the services provided, all parties sign a form recommending the client and disclosing the consent fee. Tax Network USA will file a Declaration of Representatives with the IRS and/or State Tax Revenue Departments involved.

Once our declaration is accepted, this will allow our office to request transcripts, reports, or collection appeals while we resolve the tax issue. Because our practice has a dedicated pin with the IRS, our average hold time is 2 minutes. This allows us to work in a much more efficient way to solve the client's tax problems.

The resolution process will start when the financial statements are collected and properly submitted to the IRS or the State Revenue Department. Tax Network USA has a comprehensive team designed to outperform the IRS or State Revenue Department. Whether negotiations or appeals are needed, we will fight to resolve the tax issue in the clients' best interests. Once a resolution is achieved and the tax problem is resolved, you can continue to serve the client for accounting and tax preparation needs.
